Professional Summary

Full-Stack Developer at The Trexa and 5th-semester Computer Science student at Air University with a strong foundation in C++, SQL, and Data Analytics. Hands-on experience building responsive React interfaces, integrating REST APIs and authentication flows, and deploying production web apps, gained through internships at App Aura and CodeAlpha. Also experienced in automating data workflows and building interactive dashboards, with a focus on writing clean, maintainable code and delivering reliable solutions.

Work Experience

Full-Stack Developer (Remote, Contract)

Sep 2026 - Present

The Trexa (Private) Limited

- Develop, maintain, test, and optimize responsive front-end interfaces and back-end services.
- Design and integrate APIs, databases, authentication flows, and third-party services.
- Write maintainable code using Git version control; support debugging, deployment, and documentation.
- Collaborate with management and team members to deliver secure, reliable solutions aligned with business priorities.

Frontend Developer Intern (Remote)

Jun 2026 - Sep 2026

App Aura, Lahore

- Built a pharmacy management frontend with React 19, Vite, and React Router (landing, pricing, medicines, login, and signup pages).
- Integrated the login flow with the company's REST API, including token-based authentication and session handling.
- Deployed the application on Render and managed source code on GitHub.
- Researched Next.js vs. React 19 and prepared a step-by-step migration plan for the company's production frontend.

Frontend Development Intern (Remote)

May 2026

CodeAlpha

- Built responsive web pages and UI components using HTML5, CSS3, and JavaScript (ES6+).
- Completed hands-on frontend tasks focused on clean layouts, interactivity, and cross-browser compatibility.

Data Analyst

Aug 2025 - Oct 2025

E-Bay Project-based (Remote)

- Analyzed e-commerce sales data to identify trends, customer behavior, and product performance.
- Utilized SQL for data extraction and Python for cleaning and exploratory data analysis.
- Created interactive dashboards in Tableau to visualize key performance indicators (KPIs).
- Delivered actionable insights for optimizing marketing strategies and inventory management.

Education

BSCS - Air University, Islamabad

Sep 2024 - Present

Bachelor of Science in Computer Science - 5th Semester

Certifications & Courses

Full Stack Web Development

Oct 2025 - Jan 2026

Board Infinity via Coursera

Data Analyst

Sep 2023 - Dec 2023
